

# TheosHope4 Sound

**Help us Give Theo a Chance to Hear**

Theo is just 8 months old and was born with a very rare form of deafness due to his auditory nerves fusing. He has a completely silent world. Theo is due to have pioneering surgery in Italy to give him a bionic ear which will give him a chance to hear for the first time in his life .

We are fundraising for this surgery and for the aftercare and intensive speech therapy he will need to teach him to interpret the sound and hopefully develop speech.

More information can be found at his website  
[www.Theoshope4sound.org](http://www.Theoshope4sound.org) .

Thank you with your help Theo will have a world with sound.
